## Education

University of South Carolina - Columbia

Columbia, SC

Bachelor of Science in Computer Science

May 2029

## Experience/Personal Projects

### Automated Plant Watering System

- Automatically watered plants when soil moisture levels dropped too low
- Allows for sufficient watering of multiple different plant types

### Workout Manager Application

- Tracks user progress through manual user input
- Efficiently stores user data for long-term analysis and progress checks

### Deadline Tracker Website

- To-do list that shows assignment deadlines and other time-oriented tasks
- Dynamic prioritization of tasks based on due dates and task size

## Skills

- Programming Languages - beginner python, intermediate java
- Languages - beginner Spanish
- Software - beginner Unity, beginner Blender
